

SERMON APPLICATION QUESTIONS | January 30, 2022

As we are going through our vision series, This Is Our Heartbeat, we encourage you to take the time examine your life, your relationship with God and your relationship to our church family. Under our true leader Jesus Christ, everyone belongs, and everyone has a part to contribute. We encourage you to take notes and have open heart to how God might be moving in your life during this season.

We encourage to use the following questions to help prompt follow up application to your life that you can use with your Community Group or on your own.

- Justin talked about the complex reality that serving is both our great opportunity and our responsibility. When you consider serving, or beginning to serve, which more easily comes to your mind? Discuss with your Community Group the difficulties we sometimes have in viewing serving as both.
- Jesus' example was to serve and submit himself to the Father, though the circumstance would put Him through a painful ordeal. Likewise, He has called us to follow His example, knowing that it honors the Father. How can we still experience joy just as the apostles did, when our serving leads to hardship.
- The danger of burnout is that it actually prevents us from continuing to be effective for the kingdom. Justin offered a couple of ways to combat burnout, but this was by no means an exhaustive list. What other ways can we stave off serving burnout in order to be effective members of the Kingdom of God?
